# Project Demo Planning

| | |
|---|---|
| **Date** | 29 September 2026 |
| **Team ID** | SWTID-2026-9550 |
| **Project Name** | Script-Controlled ACL – Restrict Record Access Based on Field Value |
| **Maximum Marks** | 1 Mark |

## Project Demo Planning:

A well-structured demo plan ensures that the team presents the Script-Controlled ACL project effectively, covering the project objective, ServiceNow configuration, ACL features, live access-control tests, and responsibilities of each team member.

| S.No | Demo Section | Description | Duration (mins) | Responsible Member |
|---|---|---|---|---|
| 1 | Introduction & Problem Statement | Introduce the project and explain the need to restrict ServiceNow record access based on field values and user roles. | 3 | K. Sangavi |
| 2 | Solution Overview | Explain the custom user roles, Institution Details table, branch field and Script-Controlled ACL approach. | 4 | S. Shri Kamali |
| 3 | User, Role & Table Setup | Show the EEE User, bb1–bb4 roles and the u_institution_details table with its fields. | 4 | M. Shafrin Banu |
| 4 | Live ACL Demonstration | Demonstrate READ, CREATE, WRITE and DELETE ACL behavior using role-based users and the EEE branch condition. | 7 | A. Varsha |
| 5 | Testing & Verification | Impersonate users and verify permitted and denied access for records, including administrator access. | 4 | S. Veera Lakshmi |
| 6 | Conclusion & Key Outcomes | Summarize how the ACLs protect records from unauthorized viewing, modification, creation and deletion. | 3 | K. Sangavi |

## Demo Flow Summary:

| Step | Activity | Notes |
|---|---|---|
| 1 | Introduction & Problem Statement | Explain controlled access to ServiceNow records. |
| 2 | Solution Overview | Explain roles, table, field condition and ACL script. |
| 3 | Live Feature Demonstration | Demonstrate READ, CREATE, WRITE and DELETE permissions. |
| 4 | Q&A; Session | Answer questions about roles, scripts and access behavior. |
